(/us/)MEET OUR TEAM

Dr. Michael Anderson D.C.

We are excited that you are considering our office for Functional Nutrition.

FUNCTIONAL NUTRITION ACWORTH GA

Listen to your body's needs. Do you have type II diabetes? Do you have a thyroid condition? Are you still struggling with debilitating symptoms of your condition despite receiving treatment?

Do you experience anxiety about your blood sugar levels? Do you feel like your life is restricted by your daily routine that revolves around painful insulin injections? Do you worry you will fall victim to severe diabetic complications? Do you endure your days with debilitating symptoms that put a damper on your happiness and quality of life, despite what your doctor says are "normal" labs?

Your every question every health decision you've ever made; you wonder if there is any chance that you'll ever get your life back. "Where did I go wrong? I just want to be healthy!"

Stop managing your condition and start turning around your condition with the power of functional nutrition. It's okay. We can help you. Millions of people across the country deal with similar struggles as a result of their type II diabetes and thyroid diagnosis. Contact our functional nutrition doctors in Acworth (/) today to get started.

EXPERIENCE THE BENEFITS OF FUNCTIONAL NUTRITION

We work with our patients to restore hope and new confidence in their bodies' ability to health. Together we overcome one of the common flaws of the mainstream health care system. You might be an ideal candidate for our innovative clinical approach. The opportunity to turn around your condition may be well within your reach. You can get your life back. We will treat you as an individual and not as a code, as your conventional doctor has. Discover a holistic and clinically established treatment regimen that will power our journey toward total body health and a life free from your diagnosis.

CHALLENGE THE HEALTH CARE STATUS QUO

One (1) out of every three (3) people you meet will develop some form of diabetes in his or her lifetime. 10% of women have a sub-optimally functioning thyroid.

Every year there are:

- 12,000 unnecessary surgeries performed
- 7,000 incorrect medications given to patients in hospitals
- 80,000 infections acquired by patients in hospitals
- 106,000 complications endured by patients as a result of routine prescription drug use

FREQUENTLY ASKED QUESTIONS

I Just Want To Be Healthy! Where Did I Go Wrong?

It's okay. We can help you. We will work with you to help you stop managing your condition, and start turning around your condition, with the power of Functional Nutrition.

None Of The Conventional Methods Or Medications Have Helped Me With My Type II Diabetes Or Thyroid Diagnosis. How Can You Help Me?

We work with our patients to restore hope and new confidence in their bodies' ability to heal. Together we overcome one of the common flaws of the mainstream health care system.

Who Is The Ideal Candidate For Your Innovative Clinical Approach?

The opportunity to turn around your condition may be well within your reach. You can get your life back. We will treat you as an individual and not as a code, as your conventional doctor has. Discover a holistic and clinically established treatment regimen that will power your journey toward total body health and a life free from your diagnosis.

NEW PATIENT SPECIAL OFFER (/special/)

Iris C.

"I just started my program with Dr. Anderson. He has told me more about my health after results than any other doctor or specialist that I have seen since Jan 2019. His staff is wonderful (Melissa, Tori) the ones I've dealt with so far have certainly made me feel like I belong there. I'm very hopeful to start seeing some amazing results from the many effects of my type 2 diabetes."
